The Status of Claims:

Claims 1-22 are allowable.

Reasons of Allowance

I. The following is an examiner's statement of reasons for allowance:

- The rejection of Claims 1-5, 8-10, 13-15, and 18-20 under 35 U.S.C. 102(b) as being anticipated clearly by Lee et al (US 6,013,835) has been withdrawn due to the modification of claims in the amendment.
- The rejection of Claims 1-22 under 35 U.S.C. 103(a) as being unpatentable over Lee et al (U.S. 6,013,835) has been withdrawn due to the modification of claims in the amendment.

Lee et al teaches the process of producing terephthalic acid by oxidation of para xylene in the reactor in the presence of acetic acid solvent containing cobalt and bromine and further purifying the resultant slurry of the terephthalic acid by filtrations and/or counter current washing processes.

However, the instant invention differs from the prior art in that the cake is sent to the drying without changing into slurry and much fewer steps in comparison with the steps involved in the prior art. Therefore, the claimed invention would not have been obvious to the skilled artisan in the art in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to "Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.

Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
